FOR IMMEDIATE RELEASE

BLUE SEA SYSTEMS HIRES NEW PRODUCT DEVELOPMENT ENGINEER

Chad Beauregard brings embedded systems engineering experience

BELLINGHAM, WA – (May 19, 2010) Blue Sea Systems, a Bellingham-based manufacturer of marine electrical products, announces the addition of Chad Beauregard to its Engineering team. Chad's primary role will be as an embedded systems engineer responsible for product development and supporting existing products.

Chad comes to Blue Sea Systems from American Micro Fuel Devices, which he founded. Previously, Chad worked for eight years at Dynojet Research, where he held the titles of Electrical Engineer and Electrical Engineering Manager.

"Chad brings a strong background in electrical engineering and embedded software programming," said Scott Renne, President of Blue Sea Systems. "His experience in developing innovative solutions for mobile electrical systems made him an excellent fit in our organization."

In addition to his interest in boating, Chad enjoys fishing, skiing, and modifying high-performance motorcycles.

About Blue Sea Systems

Blue Sea Systems was founded in 1992 based on a commitment to create innovative high quality marine electrical products to improve the safety, simplicity, and reliability of boating. Blue Sea Systems employees are active boaters who apply their passion to designing, developing, and building products that enhance the experience of boaters.
